Accessing Your STUDENT Textbook on ConnectEd via LEARN

Requirements:

(1) Popups must be allowed on your computer

(2) Your teacher must provide a "Redemption Code" which will give you access to your textbook

Go to http://learn.sarasota.k12.fl.us. Login using your "N number" as your username and your 5 digit PIN as your password.	
Once you've logged in you will see "Student Textbook Library" listed under your Community Groups. Click it.	Once in the Student Textbook Library you will see the various subject areas. Click on the appropriate subject area.	
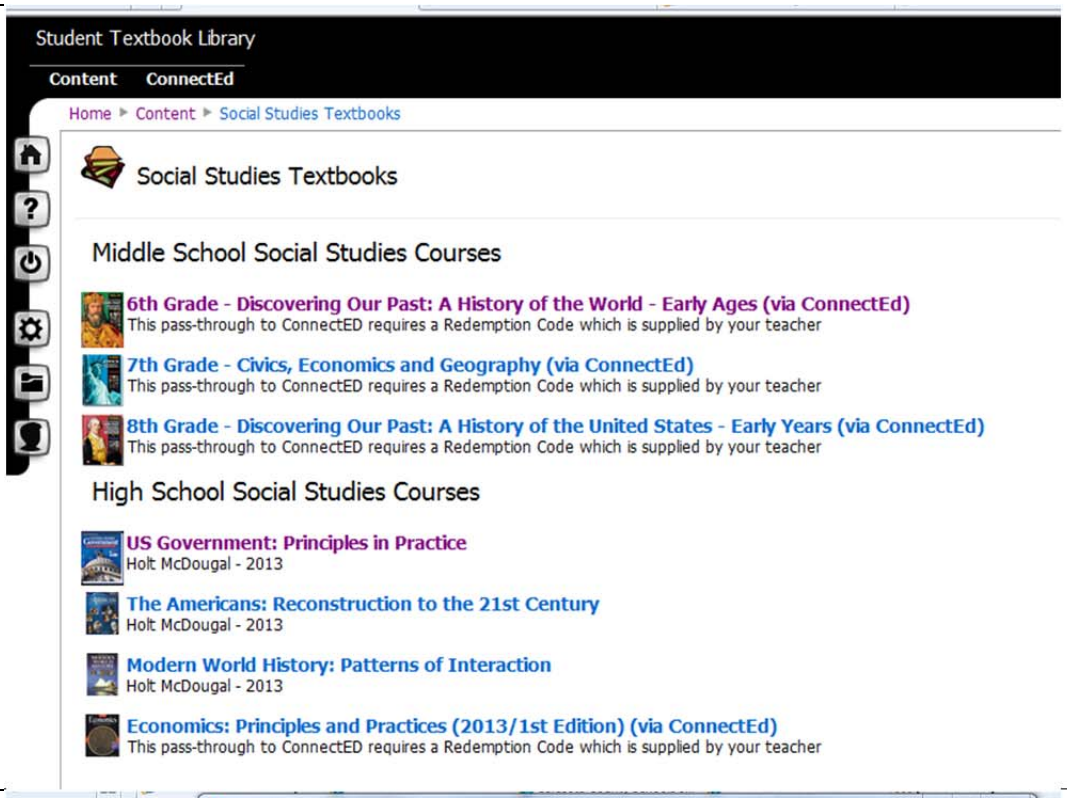
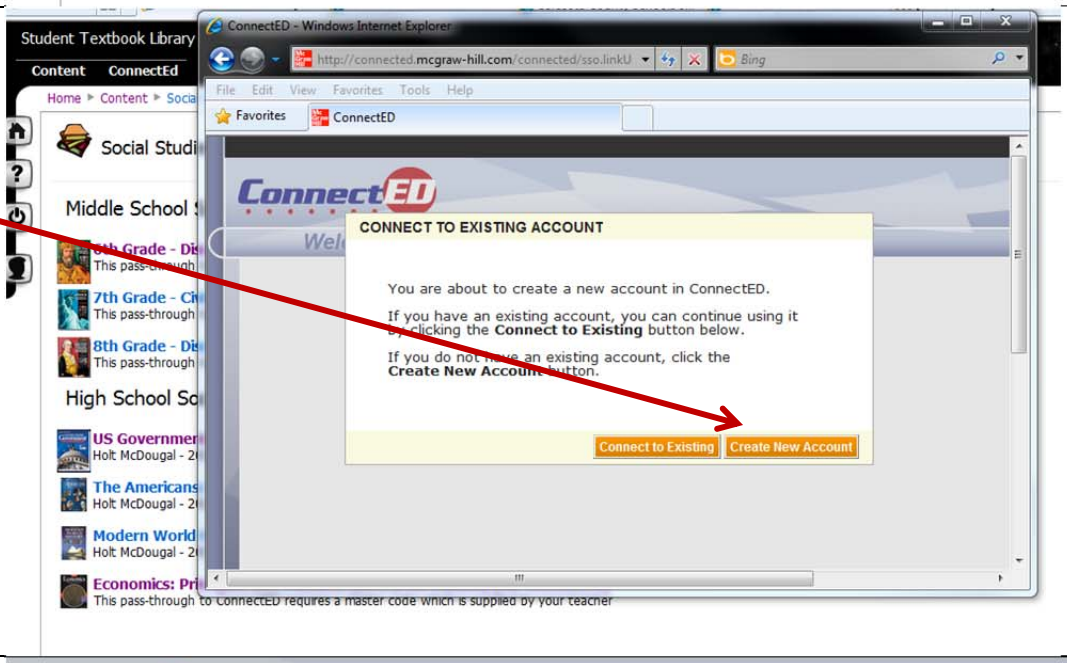
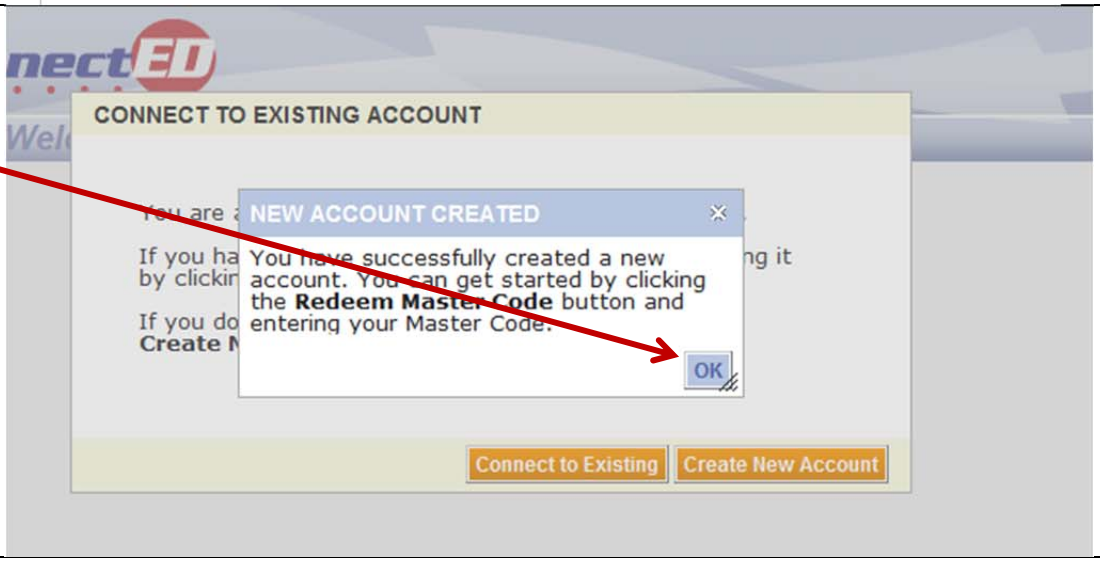
Select the textbook you wish to access. If this is a ConnectEd textbook you will see a note after the title that states "via ConnectEd". Also note that you will need a redemption code the first time you attempt to access this book. Your teacher can supply you with this code. Click on the book you wish to access. (for the purposes of this demonstration we will access Economics).



The first time login you will be prompted to have an account created. Click "Create New Account".



You will see a notification that a new account has been created. Click "OK"



If this is the first book you have accessed on ConnectEd you won't see any books. To add a new book click "Add".	You bill be prompted to enter your Redemption code. This is the code which your teacher will supply to you. Enter the code and click "Add".	Your textbook should now appear. To access your textbook again simply login to LEARN, click on the Student Textbook Library and click on your book. You will automatically be logged into ConnectEd where you will see your textbook.
